VOLUME 25, NO. 45

WEST LIBERTY, MORGAN COUNTY, KENTUCKY, THURSDAY, JUNE 6, 1935

WHOLE NUMBER 1287

## A TAX PROGRAM

A lot of people are saying, "If you don't have a sales tax, where will we get the funds necessary to run our institutions?" This is a fair question and legislators out looking for votes should supply the answer. The Commonwealth, a journal of opinion printed at Lexington, gives the following good suggestions:

1. A personal income tax.
2. A corporation tax.
3. A revised inheritance tax.
4. Various selective excise taxes on specified commodities and services (luxuries).
5. Restoration of the state property tax with exemptions of homes and farms in and on which the owner actually resides to the extent of \$1,500.

## WHAT TO LEARN

It may be interesting to American girls to learn what is considered the nice thing in the way of a feminine education in Australia, the little continent on the underside of the world. According to an Australian farm journal, this is what a girl should learn:

To sew, to cook, to mend, to be gentle, to value time, to dress neatly, to keep a secret, to avoid idleness, to be self-reliant, to darn stockings, to respect old age, to make good bread, to keep a house tidy, to be above gossiping, to make home happy, to control her temper, to take care of the sick, to take care of the baby, to sweep down cobwebs, to marry a man for his true worth, to read the very best of books, to take plenty of active exercise, to be a helpmeet to her husband, to keep clear of trashy literature, to be light hearted and fleet footed, and, finally, to be a womanly woman under all circumstances.

## FLAT WOODS

June 3.—Mrs. James Wheeler was guest of Mrs. G. B. Cox on Sunday. Mrs. Sherman Robinson was the Saturday night and Sunday guest of Mrs. Mart Robinson at Goad Ridge. Mr. and Mrs. Ora Ratliff, who had been in school at Richmond, returned home Thursday night. Jesse Henry of Dayton and Glen Bartley of Ezel were guests of G. B. Cox and family on Saturday. Mrs. Jonah Wells and Mr. and Mrs. Ollie Engle attended Decoration here Thursday. Rev. James Wheeler attended church Sunday at Grassy Valley. Miss Mildred Fugate returned on Wednesday from Morehead school. Lewis Debusk of Dehart spent a few days here last week. J. B. May, C. C. May, and James Wheeler made a business trip to Morehead on Thursday. Mr. and Mrs. J. R. Gibson were the guests of Mr. and Mrs. W. P. Henry on Thursday afternoon. Mr. and Mrs. Aaron Cox were the Thursday guests of Mr. and Mrs. Austin Kempin. Mr. and Mrs. J. R. Gibson and daughter Ella were guests of Mr. and Mrs. Anderson Hays at Omer, Sunday. Mrs. Wilma Wells of Licking River attended Decoration here Thursday. Tom Henry had business in West Liberty on Monday. UNCLE ZIP

## BAPTIST CHURCH

Prayer meeting and song service at 7:30 o'clock every Thursday night. Sunday school at 10 o'clock a.m. Church services immediately after Sunday school and also at 7:30 p.m. Everybody is invited to attend these services. "Not forsaking the assembling of yourselves together."

ROSCO BRONG, pastor

## METHODIST CHURCH

Sunday school 9:45 a.m. week service every Wednesday night at 7 o'clock. Church services the first and third Sundays of each month at 11 a.m. and 7 p.m. Young people's service every Sunday night at 8:15 o'clock. A cordial invitation is extended to everyone to be present at all these services. I. J. SCUDDER, pastor

## CHRISTIAN CHURCH

Sunday school at 9:55 a.m. Endeavor Society at 6:15 p.m. Communion 10:45 a.m. except on second and fourth Sundays. Preaching services each second and fourth Sunday at 11 a.m. and 7:30 p.m.

## BIRTHDAY DINNER

Rev. and Mrs. Harlan Murphy and grandson Cleo were among the guests present at an elaborate birthday dinner at the home of W. T. Ward, in the west end of the county, on Sunday. Other guests were Mr. and Mrs. Martin Ledford and family, Mrs. W. G. Ward, Mrs. Fay Ward Little and son Dan, and Hise Tudor, all of Paint Lick; Mr. and Mrs. Curtis Rose and family, of Paris; Mr. and Mrs. Farris Wilson, of Ford; Mr. and Mrs. Chas. Ward and son Don, Frank Ward, Miss Walda Murphy, and Joe Ward, of Ezel; Mrs. Zenia Tudor and son Arthur and Miss Irene Patrick, of Winchester; Miss Madge Ward, Morehead; A. J. Combs and the family, Edna Marshall, Edith, Lois, Kenneth, and "Dad," all of Pekin. It was a very happy occasion and the Ward home was an appropriate setting for the event.

## LICKING RIVER

June 4.—Mr. and Mrs. Arnold Lewis and children Don and Arlene, of Osborn, Ohio, who had been visiting relatives here a few days, returned home Saturday. Miss Virginia Lay of Ezel is visiting her cousin, Mrs. Melvin Wells. Albin and Oleta McKenzie, little daughters of Mr. and Mrs. Victor McKenzie, have been very sick the past week. Mrs. Lizzie Wells is visiting relatives at White Oak. The following young people enjoyed an outing at Brokeoke Falls on Sunday: Anna Henry, Joyce Henry, Virginia Law, Mavis Wells, Powell Henry, Milford Wells, John May, Mrs. Melvin Wells, and Mr. and Mrs. Frank Lewis. They called on Mr. and Mrs. J. A. Henry at Malone in the afternoon. Mr. and Mrs. Jimmie Adams and little son Donald spent the week end with Mrs. Adams' mother, Mrs. M. H. Henry. Mr. and Mrs. Lester Reid, Christine Lewis, and Curtis Henry, who had been attending school at Morehead, have returned home. Mrs. Ed Day spent Friday with Mr. and Mrs. Math Lewis. Mr. and Mrs. Ollie Engle, Mrs. Math Wells, and Mrs. J. B. Wells and daughters Maxine and Naomi attended Decoration services at Flat Woods on Thursday.

## MALONE

June 3.—Johnnie Walsh, who is working in Lexington, visited home folks over the week end. Mr. and Mrs. C. W. Nickell and children, of Lexington, visited Mrs. Nickell's father, I. S. Williams, a few days last week. Mr. and Mrs. Curtis Ratliff and children, of Ashland, were week end guests of Mrs. Ratliff's parents, Mr. and Mrs. S. H. Lykins. Mrs. Boone Lykins and little son James Curtis were at Spaw Creek on Thursday. Hubert Ratliff of Stacy Fork was here Sunday. Mrs. Jim Nickell and children, of Stacy Fork, were the Sunday dinner guests of her mother, Dora Nickell, and family. Stanley Steele of this place moved his family to Ohio one day last week. Mr. and Mrs. Jim Steele and son James and Ora Steele, of Ashland, visited last week their parents, Mr. and Mrs. G. W. Steele, here. Mr. and Mrs. Ray Hane of Wells moved recently to the house vacated by Mr. and Mrs. Stanley Steele. Mrs. Homer Steele and son George Harold, of Ashland, visited her parents, Mr. and Mrs. Lee Barker, a few days last week. Mr. and Mrs. Wm. Willis and Mrs. Pauline Huddle, of Columbus, Ohio, visited Mrs. Dora Nickell and Mr. and Mrs. Clay McGuire a few days last week. Mr. and Mrs. Carl Frisby of Middletown, Ohio, were Thursday night guests of Mr. Frisby's sister, Mrs. Ezra Williams. Cell Nickell and Malcolm Holliday, who are stationed in the CCC camp near Paintsville, visited home folks over the week end. Mrs. Hester Vest and Mearl McGuire motored to Louisville on Saturday to bring back for a visit Mrs. Vest's children from the Masonic home. Miss Anita Castleberry of the Kentucky Children's home to Louisville was here Thursday. V. R. Nickell was called recently to the bedside of his brother, Jim Tom Nickell, who is in a hospital in Lexington. Success to the Courier crew. PAT AND MIKE

## Will Manage Campaign

To the people of Morgan county:

I have accepted the position of campaign chairman in Morgan county for A. B. (Happy) Chandler for Governor. Mr. Chandler was placed on his own early in life. He worked his way thru graded and high school by selling the Courier-Journal and by delivering laundry, and worked his way thru college and was given an LL.B. degree and has made success as an attorney. When he left Harvard university a very wealthy man gave him a check in blank signed with his signature for him to pay his way that year in school but instead of using this check he secured a job and worked his way and when he returned home at the end of the year he returned the check unused. He is a self-made man. He is an ex-service man and a Legionaire.

Mr. Chandler was elected state senator and served two years up to the time he was nominated and elected lieutenant governor. He has fought for

the common people. He opposed the sales tax for the reason that he did not believe that a working man should pay the commonwealth 3 cents out of the dollar that he worked out before he spent his other 97 cents, and you will recall his courage in calling the general assembly together and having the compulsory primary law passed. However, he was for a one primary system and not the two primary system that was forced over by the governor's crowd. The campaign is young and I want you to read the record of all the candidates and to look into their past history, and I believe that you will see that Happy Chandler is the man who will make the best governor, and that he is a man of the common people and that he deserves your vote on his record.

Respectfully submitted,  
L. L. WILLIAMS, Chairman,  
Chandler Campaign Committee,  
for Morgan county, Ky. (Adv.)

## MARRIAGE LICENSES ISSUED

May 3, J. Raymond Blevins, Bonny and Ora Lawson, Korva.  
May 3, Ernest Craft, Caney, and Ruby Bailey, Caney.  
May 3, Willie B. Kempin, Ezel, and Ella Lewis, Kellacee.  
May 3, R. L. Cox, Diggins, and Louella Jenkins, Ogden.  
May 10, Orlis Moore, Blairs Mills, and Lela Blankenship, Blaine.  
May 10, John J. Johnson, Lenox, and Florence Conley, West Liberty.  
May 15, John Ashberry, Kellacee, and Reva Barnett, Kellacee.  
May 18, Delbert R. Johnston, West Liberty, and Martha Keeton, West Liberty.  
May 20, Buford Pack, Florress, and Hattie Daniels, Florress.  
May 21, Antie Conley, Crockett, and Nancy Alice Ison, Moon.  
May 25, James Park Oney, Caney, and Reva Spencer, Caney.  
May 25, Charles Estep, Flatgap, and Mae Lemaster, Kenwood.  
May 29, Leonard Whit, Redwine, and Mazie Adkins, Wrigley.  
May 31, Garland Craft, Kellacee, and Reva Roberson, Bonny.

## Morgan Quartet on Air

The Holiday's Jubilee Singers, consisting of Harrison Holliday, Bradley Baldwin, Mildred Mathews, and J. C. Hamilton, will be on the air for the Sandy Valley Grocery company on radio station WSAZ, Huntington, W. Va., at 12:30 central standard time on Saturday, June 8. We hope Courier readers will be listening in, as a song will be dedicated to the editor of the dear old Courier. H. H. HOLLIDAY

## SEWING CIRCLE MEETS

Caney Circle, Ky.—The Church of God Sewing Circle met May 31 at the home of Mrs. E. C. Watson. The president, Mrs. W. T. Stamper, was in charge of the meeting, which was opened by singing "Tell It to Jesus Alone" and "That Beautiful Country," with Mrs. Louella Patrick at the piano. Mrs. Arthur Gathman gave the devotional reading, the nineteenth Psalm. Mrs. J. D. Benton led in prayer. The secretary read the minutes of the last meeting. The work was then taken up, and progressed nicely. The hostess served delightful refreshments of cake and lemonade. Present were Mrs. Arthur Gathman, Mrs. Roy Benton, Mrs. Geo. Collinsworth, Mrs. W. T. Stamper, Mrs. Elsie Lykins, Mrs. J. W. Benton, Mrs. Luther Bailey, Mrs. Lonnie Patrick, Mrs. J. D. Benton, Mrs. M. H. Ferguson, Mrs. Hubert Benton, Mrs. Carlisle Lykins, Mrs. Clay Barton, Miss Garne Patrick, Miss Beulah Bailey, and Miss Melvone Ferguson. The meeting adjourned to meet with Mrs. John Watson on June 14.

## Adult School Closed

A nine months term of an adult school with Mrs. Pearl Wheeler as teacher closed at Liberty Road a few weeks ago. This school was conducted under federal auspices and was primarily for persons who, for one reason or another, had been denied the privileges of school training in their earlier years.

Mrs. C. S. Wells is making an extended visit with relatives in Ashland.

## Had Jolly Time

A reunion of former Morgan county folks was staged at the home of Mr. and Mrs. W. K. McClure at Fort Mead, Florida, when Mrs. L. Y. Redwine, Mrs. B. F. Carter, and Mrs. J. R. Kendall joined the McClures in a dinner party at their home.

## PIE SUPPER SUCCESS

The pie supper held at the court house on Friday night of last week under the auspices of the county superintendent and the principal of the West Liberty school, and in the direct interest of the new school building, was a financial and social success. The members of the committees who performed their work and contributed to the success of the affair have the thanks of the persons directly interested as well as of the whole community.

The total net receipts of \$68.02 was turned over to Miss Mary Jane Cox, secretary of the Parent-Teachers association, to be used as the occasion warrants.

## MIDDLEFORK

June 3.—C. C. Smith made a business trip to Morehead last week. Misses Faye Smith and Margaret Cox, who are attending school at Morehead, are visiting home folks this week. W. O. Pelfrey and family, of West Liberty, and Mrs. Addie Conley and daughter Phyllis are at the bedside of L. C. Pelfrey, who is in a serious condition. Roscoe Cox and family, of Crockett, visited relatives here Sunday.

## REXVILLE

June 3.—Born, June 2, to Mr. and Mrs. Edwin Brewer, a boy, G. W. Mrs. Roy Kashi and little sons Randall and Ralph, of Mt. Sterling, spent the week end here with Mr. and Mrs. G. W. Brewer. Mr. and Mrs. Z. N. Childers and sons Rexford and L. T., of Pikeville, visited Mr. and Mrs. D. B. Oldfield and family on Sunday. Mr. and Mrs. Dennis Lykins and family, of Maytown, visited Mr. and Mrs. Herbert Nickell on Sunday. Mr. Nickell had a paralytic stroke a few months ago but is able to walk about some now.

Mrs. Mort Luke, who has been sick for some time, is slowly improving. Charley Nickell, who had been confined to his room for several months, is able to be out again.

## GREAR

June 3.—Several persons from here attended church Sunday, May 26, at Grassy Lick. Mrs. Florence Ferguson had as Thursday dinner guests Mrs. Fern Lewis and son Edward Wells, of Indev, Arthur Wells of Wells Hill, and Amos Adams.

Mr. and Mrs. Cletis Stacy and children Emma, Homer, and Ruth visited over the week end Mr. Stacy's sisters, Mrs. Nori Hane and Mrs. Henry Fugate, and families, of Stacy Fork. Rev. John L. Ferguson of Long Branch, is paying his son, Harlan Ferguson, here, an extended visit.

Mort Music of Pomeroyton was the Saturday dinner guest of his sister, Mrs. Florence Ferguson.

Mr. and Mrs. W. C. Ferguson had as their Saturday night guests Mort Music of Pomeroyton and Mr. and Mrs. George Sizemore of Pike county. Misses Wilma and Lillian Fugett, of near West Liberty, were visiting their uncle, Crawford Fugett, and family, the last of the week.

Mr. and Mrs. H. M. Havens had as their Sunday guests Mr. and Mrs. George Sizemore of Pike county, Mr. and Mrs. Mitchell Evans and children, of Ezel, Oliver Carter of Paskirk, Mr. and Mrs. Amos Adams and children, and Mr. and Mrs. W. C. Ferguson.

Mrs. Mary Ferguson was the Sunday afternoon guest of her son-in-law and daughter, Mr. and Mrs. Robert Ferguson, of Grassy Creek.

Mr. and Mrs. Denzil Short were the Saturday night and Sunday guests of Mr. and Mrs. Will Short.

Johnnie Havens of Liberty Road visited last week his aunt, Mrs. Amos Adams.

Carl Havens' children, of Liberty Road, spent part of last week with their grandparents, Mr. and Mrs. H. M. Havens.

Ervine Conley was at Mt. Sterling on Wednesday.

Miss Anna Byrd of Detroit, Mich., who spent her annual vacation with her parents, Rev. and Mrs. John Byrd, and other relatives here, returned to her job Thursday.

## McKENZIE

Charlie W. McKenzie was born Sept. 9, 1871; died June 3, 1935, in West Liberty.

Mr. McKenzie was the son of Judge and Mrs. O. J. McKenzie of Elkfork. There Charlie was born and on Elkfork is his farm where he has always made his home.

On Nov. 28, 1922, he was married to Miss Ada Bayes, daughter of Mr. and Mrs. Ed Bayes at Licking River. To this union were born two daughters, Dixie and Jewel.

About a year ago Mr. McKenzie was elected as a member of the county board of education and moved his family into one of the dormitories so as to have his daughters nearer school.

For several years Mr. McKenzie had heart trouble. On April 26 he had a slight stroke of paralysis, but could walk about as usual. Five days later he was stricken again and was never afterward able to leave his bed, although he owned a little better. The last week of his life he suffered and fared rapidly. He died, however, peacefully after almost to the very last. He conversed about his business and advised as to who should conduct his funeral.

Mr. McKenzie was a devoted husband and father. He was a man of honor and integrity and was highly respected. Several weeks before his death he made a confession of faith in Christ, saying, "God has saved my soul."

The deceased is survived by his widow and two daughters; three brothers, Dan and Clay at Elkfork and John at Morehead; two sisters, Mrs. Emma Cuskey at Farmers and Mrs. Elizabeth Keeton at Lenox; his step-mother, Mrs. Marinda McKenzie, at Elkfork; three half-brothers, Henry at Elkfork and Chester and Mack at Paris; and many other relatives and friends.

Funeral services were conducted at the home in West Liberty at 9 a.m. Wednesday by Rev. M. B. Whit of Wrigley and Rev. Harlan Murphy of West Liberty, as Mr. McKenzie had requested, both being his old friends.

Further services were held in the McKenzie cemetery at Elkfork, after which the body was laid to rest with Masonic ceremonies in charge of Highland lodge no. 311, of which he was a member.

## REVIVAL MEETING

Rev. John R. Gilpin of Russell will open a revival meeting at the Baptist church in West Liberty on Monday night, June 17. Christians of all denominations may profit from this meeting by faithful attendance. A Daily Vacation Bible School for all children of school age will be held next month, July 8 to 20.

ROSCO BRONG, pastor

## SEEN and HEARD around the National Capital

By CARTER FIELD

Washington.—The question of new taxes, often hinted, though never given much official notice, is right on top of the heap again as a result of the bonus situation.

Every one in the inside in Washington, providing his vision was not distorted by what he wanted, instead of what cold reason would demonstrate, has known for some time that some form of bonus legislation would pass and that its passage, unless the whole Roosevelt formula was to be set aside, would necessitate additional taxes.

In the President's mind, the bonus is on all fours with the cotton processing tax.

"Where would the money come from?" his question to New England and southern demands for repeal of the cotton tax, applies equally to the drain on the treasury that a bonus compromise would make.

The only change in the situation is that the probability now is the compromise will result in taking several hundred million dollars more out of the treasury than had been figured up to a few weeks ago. For example, it has been known for some time that, despite the President's views about the bonus, he would be glad to compromise for something like \$1,200,000,000.

But the prospect today is that it will take at least \$1,500,000,000 to turn the trick.

Incidentally, the President put a powerful lever in the hands of the bonus advocates in insisting on a larger amount when he discussed that idea of \$750 invested now in a government bond amounting to \$1,000 by 1945. If he had used the legal bank rate of interest, 6 per cent, in calculating the "present value" of the bonus certificates, he could have said \$800. Actually a little less.

### Low Interest Rates

It is the first time that the low interest rates the government has been moving heaven and earth to bring about have worked against the treasury instead of for it. Over a stretch of ten years a difference of 1 per cent in interest makes a great deal of difference. Especially if the interest is compounded, as it is in the illustration the President used. The sixth grade arithmetics used to tell us that money at 5 per cent doubles itself in 12 years, compounded.

It is not definitely known just what the administration will recommend in the way of new taxes. Congress leans heavily to heavy inheritance taxes. This fits in with the Roosevelt policy of whittling away at inherited fortunes. It is in tune with heavy income taxes, reduced interest on investments, smaller profits for business, etc.

In fact, it is almost a necessary part of New Deal philosophy. For granted that the Roosevelt program for small profits, etc., would work the whole tendency would be to freeze existing conditions, preventing any new fortunes from being created, but, by the safety thrown around existing enterprises, tending also to preserve existing fortunes. Assuming they were big enough to stand losses in certain directions—utility earnings, for example.

So it appears likely that heavier inheritance taxes will be one of the surest factors in the new tax program.

Under consideration also, though with no formal blessing as yet from the White House, is the proposed tax on life insurance premiums. This would be 1 per cent, but would be paid by the companies direct. Policy holders of course would really pay it, for their dividends and policy reductions would naturally be less. There is plenty of political dynamite in this one.

Even more protests would be caused by another tax under consideration by the treasury experts. This would reduce the present exemption of 40 cent on movie admissions to 10 cents!

### Real "Drive" Possible

If three thousand farmers just happen to decide to pay a visit to Washington, enjoy the sights, tell congress to pass the Agricultural Adjustment administration amendments, and listen to a speech by the President, with no organization to stir them up, no one to pay their expenses—the whole thing just out of a blue sky, so to speak—what may happen when there is really a "drive"?

Washington may see the answer. For sooner or later there is going to be a serious move to reduce, or maybe eliminate, these benefit payments. Already there is a strong conviction—and those who hold it are getting reinforcements all the time—that the whole system of benefits is wrong. Wrong in that in the long run it is not a good thing for the farmers themselves.

Then there is another large group who want to curtail or eliminate the benefits for an entirely different reason. This group does not think the treasury can stand the strain indefinitely. Or, to put it another way, that the taxpayers (for the benefits are paid out of processing taxes) cannot stand the strain.

Put the two groups together and you have a pretty fair nucleus. It would not take much augmenting, say next year, to have a majority in congress for curtailment if not elimination.

Then there would be a real march on Washington by the embattled farmers.

Those who have considered the whole problem say that it is very un-

likely prior to election. They say the President would never dare to attempt to cut off the farmers' payments until the re-election is safely achieved.

That, naturally, is just opinion. It is the ordinary mental process of a politician—one who knows that Franklin D. Roosevelt is also a politician, and who cannot conceive his doing anything so unpollitic as kicking a lot of perfectly good voters in the face just on the eve of their going to the polls.

### Doubtful Logic

They may be right and they may be wrong. But it was the same sort of logic that led many allegedly astute political minds to assume that the President would not veto the bonus bill, including Huey Long, including Father Coughlin, including many others. So that maybe this logic cannot be taken at its full face value.

It might be said that the two things are very different. That vetoing a bonus bill never yet has hurt a President. It certainly did not hurt Coolidge. There is grave doubt that it hurt Hoover, although difficult to prove. Most veterans who happen also to be politicians will tell you privately that Hoover was hurt a great deal more by his handling of the bonus marchers than by his veto of the bonus bill.

But the present situation presents the sort of thing that has seldom been tested. It is not a case of refusing to try a scheme about which there is violent difference of opinion, such as the equalization fee idea of the McNary-Haugen bill. It is a case of cutting off money payments, which were already being received by a large class. And that might be different!

### Different Story

Lots of water has flowed downstream since the good old days when both house and senate rushed through the administration's security and stock exchange regulation bill. That measure, drafted by two of Felix Frankfurter's boys, Cohen and Landis, was put through in the early days—when President Roosevelt's wishes did not have to be expressed by the king himself to become law. The word of any of his ministers, or his lieutenants, was enough. And everybody knew that Frankfurter's boys were close to the throne.

But what a different story now! Which does not mean the bonus—that always was outside the ordinary orbit of administration program material. Nor the World Court. Nor the St. Lawrence seaway if and when it comes up.

No, the difference shows up on just the ordinary run of the mine, so to speak, legislation. And the answer is two fold.

First, the legislators on Capitol Hill, have discovered that the king's ministers may be very powerful for a time, but their time is apt to be short. Douglas is gone—lives in outer darkness. Not forgotten—far from it—but just out of the picture. Hugh Johnson is out, still praising the "Chief," but kicking the shins of the king's ministers vigorously. Though of course loyalty always had lain to the king, not the king's ministers. The most loyal subject could always deplore the folly of the king's advisers. That has been true since the dawn of history. It is not a development of the Roosevelt administration.

Now the most powerful minister in Washington is not very frightening to the bad boys on Capitol Hill if they think he is apt to be out of the picture say six months hence. That's the way politics is. There is no use trying to please anybody who won't be around to return the favor later on. Especially if pleasing this person in temporary authority means irritating folks back home who just may remember it on election day. The most imposing figure loses impressiveness if the pedestal is noticed to be wobbly. And the national legislators have come to the conclusion that there is not a single firm foundation under a single one of Roosevelt's present advisers.

### May Still Be Around

This is probably a very jaundiced view—on their part. It may be that lots of them will be around, and powerful, a year hence. But the fact that so many have slipped prevents any one of them from speaking with the old note of authority, so far as Capitol Hill is concerned.

Congress abolished its lame ducks. After a senator or member of the house is defeated he no longer can either vote or debate. But there is a certain lame duck suspicion attached to all the brain trusters.

Then there is another reason. In the early days of the Roosevelt administration the jobs done in drafting legislation were very workmanlike indeed. As, for example, the aforementioned Cohen and Landis securities and stock exchange regulation bill. Whether one approved the ideas behind the measure or not, there was no discounting the skill with which the precise intent of the framers was spread on the statute books.

But that day has passed. For example, take the social security measure—old age pensions and unemployment insurance—sent to Capitol Hill by Secretary Perkins. If there was anything right about it in its first form, it was a surprise. It was supposed to come up with the full White House blessing. But it was soon discovered that the figures did not add up. The calculations were weird. The astronomical figures were juggled until no two persons could agree within three or four billion dollars as of a day certain in the future.

Now this was never formally admitted. But the word got round. And there has been a shocking loss of confidence in the divine origin of administration measures ever since.

## "QUOTES"

### COMMENTS ON CURRENT TOPICS BY NATIONAL CHARACTERS

#### GERMANY AND PEACE

By RAMSAY MACDONALD  
Prime Minister of Great Britain

GERMANY has acted in such a way as to destroy the feeling of mutual confidence in Europe. It has broken up the road to peace and beset it with terrors. It claims a measure of armed power which puts most of the nations of Europe at its mercy.

Every reflecting, reasonable German must see the force of the point I am making. He must know in his heart that Berlin is not enough, that in fact it has upset very much more than it has pacified. Germany is arming, it alleges, to satisfy honor and self-respect, and makes the further allegation that the scale of its armaments is only enough to make itself secure.

Leaving the honor argument out of account for the moment, how can it profess to be blind to the effect which its colossal armaments must have on the sense of security of other nations? "You must trust me," it replies. "I assure you I have no designs upon you."

#### GOVERNMENT OWNERSHIP

By FREDERICK E. WILLIAMSON  
President New York Central System.

POLITICS lives on jobs, as you all know. It is obvious that under a government which is based on the political party system, the railroads under government ownership would be administered primarily for the need of that system. Under government ownership the job of every one of the million railroad employees sooner or later would become a political prize, with merit and experience taking a back seat.

Moreover, it is reasonable to assume that the sources of the railroads' supply of materials would not long remain privately owned. And, since railroads buy, for example, 22 per cent of all the coal that is mined, 16 per cent of all the steel and 16 per cent of all the lumber manufactured, thus providing much of the backlog of these basic industries, how long do you suppose it would be before these, too, would come under the control of the federal bureaucracy?

#### FUTURE NRA POLICY

By DONALD R. RICHBERG  
Director National Emergency Council.

MANY of those who in recent months helped to raise the Blue Eagle now feel that we might have moved more rapidly toward a clearer understanding of our purpose had we chosen not an emblem of force but a symbol of peace and co-operation to dignify adherence to a code of fair competition.

Yet, how can we go forward without exerting force against those who will always obstruct progress for narrow, selfish aims, who will never play the same fair unless the rules are enforced against them? Somehow these dissenting groups, whether moved by prejudice or evil purpose, must be prevented from destroying the virtuous effort of a majority to make a success of self-government.

#### CONTINUING NRA

By JOSEPH ROBINSON  
U. S. Senator From Arkansas

THE contributions of the program for industrial recovery have been spread over the entire range of industry and commerce. Even those witnesses before the senate committee on finance who opposed extension of the law admitted that, under the codes, their industries have changed from unprofitable to generally profitable.

Amendments to the act have been worked out and proposed in the light of experience. To abandon the NRA under present conditions would invite the return of the evils from which industry was suffering when the statute was passed.

#### THE REPUBLICAN JOB

By ARTHUR CAPPER  
U. S. Senator From Kansas

ITS job is to determine how much individualism we can retain, how many parts of our national economy must be owned in common or controlled in common.

In other words, we have got to make a new definition of public utilities and draw a line between the public utility and the private business. That line should be drawn in the public interest, of course.

We must work to retain a democratic system of government under the Constitution that will make government, finance, industry and business serve the people. The welfare of the people is the end.

#### FUTURE LIBERTY

By DR. FRANCIS CARTER WOOD  
Noted Pathologist.

IF TAXES are to continue high for another generation or two, those who care most for money will move to countries where there are still frontiers to be conquered, where labor is cheap and profits large. There still remain many such areas and to them will go men with the pioneer spirit, the "go-getters" of America. The rest of us will have to be content with simpler living and take our liberty as an intellectual freedom rather than a physical one.

## Says WILL ROGERS

BEVERLY HILLS.—Well all I know is just what I read in the papers or what I see here and there. Couple of weeks ago we were

up on the Sacramento River making a movie. We had a fine time. They are great folks up around there. Well they are nice folks everywhere. Their Legislature was in session, and they had just stayed their 100 days, that all they are paid for, and it was pretty tough on the old boys at that, to stay there and not get paid, so from then all they got was cussing. Before, they got paid and cussing combined, but they eliminated the pay.

Well sir I had a happy experience. I knew he was up there somewhere. I didn't know just where, as I hear from him every little while, but I hadn't seen him in years, that was Buck McKee. Buck McKee was the cowboy that used to work with me in a vaudeville act and rode the horse, or little cowpony rather, Teddy. He trained in the pony for the stage. He wasent any trick pony, he just worked on a smooth board stage, with felt bottom boots buckled on his feet like goloshes, and run for my fancy roping catches. But Buck trained him to do on a slick stage just about what a good turning cowpony can do on the ground.

We started the act in the spring of 1905, just exactly 30 years to a week from when I met Buck up in Sacramento. He was with me for I think it was four or five years. We made two trips to Europe together. We went over just one year after I had opened on the stage. That was in the spring of 1906. We went to the Winter Garden Theatre in Berlin, that was the Premier Vaudeville Theatre of all Europe. We played there a month. The act was quite a novelty, as it was the first one to ever use a running horse to be lassoed at on the stage. Buck was, (and is) a great fellow, very efficient, and can do almost anything and the best thing is that everybody liked him. I never meet an old time actor that we used to play with in vaudeville that dont ask about, "Where is that fellow Buck McKee that was with you so long that used to ride Teddy?"

Well he is at Roseville, Cal., a beautiful little town about 20 miles out of Sacramento toward Reno, Nev. He still is handling horses, the thing he does best in the world. He runs a riding academy about two miles out of town at the "Whipple Ranch," has been there 12 years. Everybody knows and likes

him as usual. His wife Maudy is with him. She was a dancer in a vaudeville act that we played on the bill with. They fell in love and were married, and she has developed into a splendid horsewoman, and they are excellent teachers and they have learned many young and old people both to ride, and ride correctly, and above all they are so good to their horses, lots of patience, and real love for a horse. He was breaking in some lovely young horses, making galloped horses out of them. He has a fine thoroughbred stallion, and is raising a few young ones himself. It was good to see him.

We came back from Berlin to London and played the Palace Theatre there, then we went back to London in 1906. We played in that very Sacramento in the hot summer of 1907 on what was called the Sullivan and Considine Circuit. J. C. Nugent the splendid actor and playwright, with all his talented family was on the bill and Billy Hanlon was our hang out. He is now the proprietor of the big and fine Senator Hotel in Sacramento. We just stood and looked at each other that day, Buck and I. Here thirty years ago we had stepped on the stage together, only he was on horse back. He always said, "I can get away if anything happens, but the audience can get you." Those were great old days, (but darn it any old days are great old days). Even the tough ones, after they are over, you can look back on with great memories).

I was married too in 1908. And sometimes the salary wasent any too big to ship Buck and his wife and Teddy, and my wife and self, to the next town.

In fact I think Buck rode some of the short jumps. It was great fun, not a worry. I regret the loss of vaudeville more than any part of it. It was the greatest form of entertainment I ever conceived. Nothing in the world ever gave the satisfaction of a good vaudeville show. We was mighty proud to be playing in it. It had class in those days. Buck looks fine, no older, and of course I am just practically a babe in arms yet. But I just knew lots of old friends and old timers would want to know about Buck. Roseville, Cal., will catch him. Speaking of catching him, I bet he has been roped, (and missed too) more times than any man in the world. He did look great when he come charging in on that stage with that beautiful little brown pony. Well old timers talk too much so I must shut up.

## Let Our Motto Be GOOD HEALTH BY DR. LLOYD ARNOLD Professor of Bacteriology and Preventive Medicine, University of Illinois, College of Medicine.

### THE THIN MAN AND THE STOCKY MAN

Have you ever stopped to think how very little you notice about your own body when you are feeling well? Beyond brushing your gums, do you ever pay much attention to your mouth when your teeth aren't aching? Do you ever consider how your stomach is acting when it isn't upset over something or you aren't hungry?

It isn't only the layman, but the medical profession as a whole has never paid any real attention to our bodies when they are well. There have been libraries and libraries written on disease, but the books written on what is normal health are virtually non-existent.

The whole effort has been to study disease and then to cure it. It has been a good way and has accomplished a very great deal.

It has in fact increased the span of our life expectancy so that it now stands at approximately sixty years. But now that we are reaching this ripe age, a number of the medical profession are saying: "Instead of waiting for a disease to manifest itself, let's see if we can't prevent it. Let's see if we can't keep people so healthy that they won't ever be laid up with long spells of sickness. We have cut down enormously the death rate from such contagious diseases as diphtheria, smallpox, rabies and measles. We have made progress with diabetes and pernicious anemia. Now let's see if we can't prevent the degenerative diseases that break down the proper functioning of the organs of the body, or at least keep them flaring up until a person is well along in years."

Obviously the first step in this objective is to make a study of normally healthy individuals so that we can learn how a healthy body reacts to certain stimuli. In the hospital connected with the University of Illinois Medical school, we had recently for a continuous period of 450 days two men, one thin and the other stocky. They were both healthy and twenty-five years of age.

We made many tests. We drew blood from each every other day, and sometimes twice daily. Stomach analysis was done at frequent intervals. All urine specimens were saved and analyzed. Basal metabolism was done daily. Ten different skin tests were made twice each week.

The stocky, blocky type proved a stable sort of fellow. He did not vary from day to day. When put into a hot room or into a cold room he was not uncomfortable. He showed little if any metabolic change as a result of these climatic environments. His urine was acid in reaction. He seemed to have little use for the alkalines in his food. We gave him certain foods to determine just how stable he could maintain his equilibrium of chemical reactions. He can be summed up as a vegetable organism. He was a digestive creature. He gained 20 pounds. He never did any type of work but stayed in bed all the time. To eat and sleep were his major functions in life. He would read little beyond the daily paper and he napped between turning the pages. He was happy and contented.

The tall man showed great variations in his body functions from day to day. His metabolism was unstable. His urine was always alkaline. He was uncomfortable in the hot room; he was excitable and uneasy; his temperature went up. His stomach stopped secreting acid and his urine became concentrated. He lost weight the day following and did not get back to normal weight for ten days. His whole water metabolism was upset. On the other hand, he fared very well in the cold room. Changes in diet produced considerable changes in his metabolism. He was a skin and nervous organism, and he was completely different from the stocky man. He was always up and about and looking for something to do. He never slept during the day. He washed glassware, helped in the laboratory, and became a real laboratory assistant in the year and a half he was under observation.

Then we made a study of a hay fever, migraine headache and hive group of patients, normal in other respects. These we found belong to the unstable types.

Their various reactions charted upon paper look like a profile of the Rocky mountains. They change more during the course of a day than the stable type change after having been given the same stimulating medicine. They are put together in a different manner and react differently to things around them. They show more changes in their blood chemistry from day to day than one would expect to find in sick people. But they are normal, that is, in so far as their fluctuating, vacillating and spasmodic type of controlling machinery will allow them to be normal.

We began these studies to gain a better understanding of normal people. Much to our surprise we found the normal range of variations to be much wider than we had previously supposed. We have still much to learn.

## Slenderizing Lines Characterize Frock

PATTERN 9321

9321

Quite the neatest trick we've observed for a long time is this cleverly arranged, yet delightfully simple, home frock. Especially nice for those of us who gain and lose weight or who just naturally love a smart looking wrap-around for sheer comfort and convenience. And, of course, a boon to expectant mothers. Note how the belt slips through a slit and may be simply adjusted to fit the figure. Meanwhile, one has stepped right into it as into a coat. No petticoat needed. Nice shoulders and back, aren't they? Most attractive in solid color cotton broadcloth or printed or plaid cotton of any sort. Pattern 9321 may be ordered only in sizes 14, 16, 18, 20, 32, 34, 36, 38, 40, 42, 44, 46, and 48. Size 36 requires 4 1/2 yards 36 inch fabric.

SEND FIFTEEN CENTS in coins or stamps (coins preferred) for this pattern. Be sure to write plainly your NAME, ADDRESS, STYLE NUMBER and SIZE. Address your order to The Sewing Circle Pattern Department, 232 West 18th Street, New York, N. Y.

## Smiles

### FULLY RECOVERED

First Nurse—Has he come to his senses yet?  
Second Nurse—Yes, he's quite rational now. Just asked me to clothe with him.

Cold Underfoot  
"I got cold feet dancing with Mabel last night."  
"How?"  
"Whenever she stepped on my foot my toes were five below."

Compromise  
"My doctor said I must not smoke at meals."  
"So you gave up smoking?"  
"No, gave up meals."

Experienced  
He—Darling, you don't know how I love you.  
She—Oh, yes I do! I've had lots of 'em this way.

Or Something  
"I grew taller after I joined the medical corps." "You must have slept on a stretcher."

**An Eye to the Future**  
Young Douglas had reached the age of seven when he was promoted to the dignity of having a room to himself. His fond parents had furnished it with great care and showed it to him with no little pride and satisfaction.

Douglas viewed it in silence. "Now, son," said his father, "this furniture is of the best. It will last you a lifetime."  
Still Douglas kept silent.  
"Don't you like it, Douglas?"  
"Oh, yes, I like it. But how do I know my wife will like it?"

## Rid Yourself of Kidney Poisons

DO you suffer burning, scanty or too frequent urination; backache, headache, dizziness, swollen feet and ankles? Are you tired, nervous—feel all unstrung and don't know what is wrong?

Then give some thought to your kidneys. Be sure they function properly, for functional kidney disorder permits excess waste to stay in the blood, and to poison and upset the whole system.

Use Doan's Pills. Doan's are for the kidneys only. They are recommended the world over. You can get the genuine, time-tested Doan's at any drug store.

**DOAN'S PILLS**

# PROTECT YOUR LIFE AND THE LIVES OF OTHERS!

There are three questions you should ask yourself about the tires you buy:

- 1—"Will the non-skid tread give me the greatest traction and protection against skidding?"
- 2—"Are they built to give me the greatest blowout protection?"
- 3—"Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?"

**Answer No. 1**—Harvey S. Firestone early realized the value of tire traction and safety and was the first to design an All Rubber Non-Skid Tire. Through the years Firestone has led the way in the design and development of tires with most effective non-skid treads.

Firestone does not depend solely on traction and non-skid tests made by its own engineers — it employs a leading University to make impartial tests for non-skid efficiency of its tires, and their most recent report shows that Firestone High Speed Tires stop the car 15% quicker than the best of all popular makes of tires.

**Answer No. 2**—Blowout protection must be built into a tire. Friction and heat within the tire is the greatest cause of blowouts. Firestone protects its tires from friction and heat by a patented process which soaks every cord and insulates every strand with pure liquid rubber. This is an additional process known as Gum-Dipping, by which every 100 pounds of cotton cords absorb eight pounds of rubber. This extra process costs more and is not used in any other make of tire.

Leading race drivers investigate the inbuilt qualities of the tires they use, because their very lives depend upon their tires, and they always select Firestone Tires for their daring speed runs. In fact, Firestone Tires have been on the winning cars in the gruelling Indianapolis 500-mile race for fifteen consecutive years, and they were on the 5000-pound car that Ab Jenkins drove 3,000 miles in 23½ hours on the hot salt beds at Lake Bonneville, Utah, at an average speed of 127.2 miles per hour, without tire trouble of any kind. These amazing performance records are proof of the greatest blowout protection ever known.

**Answer No. 3**—Thousands of car owners reporting mileage records of 40,000 to 75,000 miles, is proof of the long mileage and greater economy by equipping with Firestone High Speed Tires. Let these unequalled performance records be your buying guide.

Go to the Firestone Auto Supply and Service Store or Firestone Tire Dealer and let him equip your car with Firestone Tires, the safest and most economical tires built.

HIGH SPEED TYPE		
We select from our enormous stocks of raw materials the best and highest grade rubber and cotton for the High Speed Tire. In our factory we select the most experienced and skilled tire makers to build this tire. It is accurately balanced and rigidly inspected and we know it is as perfect as human ingenuity can make it.

We are authorized to announce  
C. C. MAY  
of Woodshend

as a candidate for the Democratic nomination for Representative from the one hundredth legislative district at the primary election Aug. 3, 1935.

## FARMERS' COLUMN

### KENTUCKY FARM NEWS

Lawrence Hall of Knott county, who wants a permanent pasture for the grazing of calves and light cattle, seeded 1,000 pounds of lespedeza, 300 pounds of orchard grass, and 200 pounds of red top on mountain land. He will not pasture the field this year.

Boyd county dairymen bought 500 bags of feed cooperatively thru the Farm Bureau this month, at a saving of \$160 from the retail prices they paid previous to April 1, reports the county agent.

Commercial orchards have good prospects for large peach and apple crops in Warren county, and pruning and spraying is being conducted extensively. One orchard that had 4,500 bushels of peaches last year will apparently produce 3,800 bushels.

The report of the county agent of Allen county says: "Farms that were a drag on the market can be bought only at much higher prices now. Farmers are busy spraying fruit trees, starting poultry projects, and buying livestock. This county was formerly a beef raising center, and opening markets are encouraging livestock raisers."

At a meeting in LaGrange to launch a lime and marl soil improvement project in cooperation with the Kentucky Rural Rehabilitation corporation, 40 Oldham county farmers urged that operations begin as soon as the weather permits.

A receiving plant has been established in Breckinridge county for 50 acres of pickles, contracted for by the Whitehead-Kiesel company of Louisville. They pay \$1 a hundred for pickles, and farmers will net at least \$3,500. The amount might be doubled with a good season.

#### Flock Profit

A profit of \$1,039 in six months over cost of feed and other expenses, not including labor and interest on investment, is reported by Grant Maddox, a Boone county poultry farmer.

His 571 hens laid 11,982 eggs in April and averaged 94 eggs per hen for the six months period November to May.

At the beginning of the laying season the flock numbered 953 hens. Rigorous culling reduced it to 571 by April.

Sales from the flock include market eggs, hatching eggs, baby chicks, broilers, fryers, and fat culls.

Mr. Maddox was graduated from the university of Kentucky college of agriculture in 1929, and is one of the outstanding young poultry farmers in the state.

### Tobacco Contract Acreage

With tobacco setting well and no adjustment contract signers are making as rented to the government an acreage of representative tobacco and equal to 40 percent of their base in the case of burley, and 20 to 3 percent of their base where dark tobacco is grown. In other words, growers are preparing to certify that the land set to burley tobacco does not exceed 60 percent of their base acreage, or 70 or 80 percent of their base where dark tobacco is grown.

Land set aside may be planted to food or feed crops for home consumption, but none may be put to crops for sale.

Growers also will be required to certify that no tobacco is being grown on any farm owned, controlled, or operated by them which is not covered by a tobacco contract.

No tobacco plants grown on a farm under contract may be sold or otherwise disposed of to any person not operating a farm subject to a tobacco contract.

The number of share tenants and share croppers engaged in growing tobacco on the farm of a contract signer is not to be reduced below the number engaged in 1933, because of the reduction in tobacco acreage and production or because of other provisions of the contract. Furthermore, it shall be construed as a violation of the contract if the proportion of the 1935 crop grown by tenants is reduced below the proportion so grown in 1933.

The second 1934 adjustment payment and the deficiency payment for the contract are to be distributed by the trustee to share tenants and share croppers having an interest therein in accordance with the terms of the contract. Failure to make proper settlement with tenants will constitute non-compliance and will prevent certification of compliance for the 1935 crop.

### 4-H Club at Consolation

On May 28 County Agent Yandall Weather organized a 4-H club at Consolation with fifteen members. The following officers were elected: President, Albert Cecil; vice president, Willie Helen Hurt; secretary and treasurer, Theda Briscoe; song leader, Miss Susie Taulbee; reporter, Charles E. Cecil. The program committee consists of the president, the president, secretary, and the leader, Mrs. Ethel C. Hurt. Monthly meetings will be held every third Friday at 2 p.m. at the schoolhouse.

### FLOOD CONTROL PROJECTS

Kentucky is allotted \$5,878,000 for flood control projects in the flood control bill now pending in congress. If adopted, the bill will not only provide safeguards against flood damage and loss of life, but will give much needed employment to a large number of people in the state. It is pointed out by Lachlan Macleay, executive vice president of the Mississippi Valley association.

There are four flood control projects provided for Kentucky in the bill, which provides that the work shall be done under the supervision of the United States army engineers. Allotments for the entire Ohio river basin total \$54,474,975, and a substantial portion of this amount will be spent in Kentucky's trade territory.

The value of flood control and river and harbor works in providing employment is shown in the analysis prepared by the war department which discloses that 79 percent of all funds spent on this type of construction is paid to labor. Of the total, 49 1/2 percent goes directly to workers employed on the projects and 29 1/2 percent to labor employed in furnishing construction material and equipment, Macleay declared.

Flood control projects rank especially high in this regard, he explained, the war department's figures showing that 78.5 percent of the total cost of levee construction goes to labor and 80.2 percent of concrete bank reclamation work.

These figures are substantiated by the monthly progress reports of the federal employment stabilization board, which reveal that the army engineers' operations on flood control and river and harbor projects employ more men in proportion to the money expended than any other federal department, or any independent agency or bureau.

Flood control projects for Kentucky, which are included in the bill, and their estimated costs, are:

Falmouth reservoir on Licking river, for flood control and other incidental benefits, cost \$3,709,000.

Cave Run reservoir on Licking river, for flood control and other incidental benefits, cost \$1,337,000.

Pineville on Cumberland river, levees to protect people and city property, cost \$296,000.

Middlesboro on Cumberland river, levees to protect people and city property, cost \$536,000.

### Has Highest Melting Point

Typical of the highest melting point of any of the metals known, about 6300 degrees Fahrenheit.

## Snapshots of KENTUCKY GEOLOGY

by Dr. A. C. McFarlan  
UNIVERSITY OF KENTUCKY

### Chapter IX

The western edge of the eastern coal field, or Cumberland plateau, is an area of exceeding ruggedness due to the outcrop of the massive layers of Pottsville sandstone and conglomerate, the sands and gravels of an ancient delta built by streams from highlands existing in what is now the Blue Ridge mountains, Piedmont plateau, and Coastal plain of the eastern United States. It is the same conglomerate formation already mentioned as forming Cumberland falls and Pine mountains.

Here these sandstones outcropping along the ridge tops form vertical cliffs and isolated remnants have given the name Rockcastle to the Rockcastle river. A little farther east these same resistant beds outcropping in the river valleys form rapids and waterfalls. To the east Pine and Cumberland mountains are but the projecting edges of this same resistant stratum, steeply tilted. It is the ruggedness of this belt in the west, together with Pine and Cumberland mountains in the east, that delayed the development of eastern Kentucky for many years. Transportation was a difficult problem.

Stream erosion has cut this upland into a maze of deep valleys and narrow, cliff-bordered ridges. It is a region of rock houses or rock shelters, reentrants or caves left when huge blocks of this rock have weathered out from the lower portions of a cliff. And such loose blocks, often the size of a small house, are to be seen on the mountain sides in various stages of breaking up and transit to the valley bottoms. The sandstone cliffs are formed of layers of rock and these layers themselves are traversed by vertical or oblique fissures (joints).

Roots of vegetation entering such crevices, water freezing, gradually pry them loose. Change in temperature, causing expansion and contraction, and other atmospheric changes contributing to rock decay aid in making the original cave and in enlarging it afterward.

With hundreds of these rock shelters throughout the region, it is only a matter of an extra large reentrant breaking thru the narrow ridge or two such rock houses opposite each other making the original break thru.

The span of rock left above constitutes the natural bridge. The Natural Bridge of Kentucky, on the dividing ridge between Wolfe and Powell counties, a span eighty-five feet long and thirty feet wide, had just such a history. The divide was unusually narrow at this place due to the presence of two small valleys heading together there.

There are several others in the vicinity, including the "Lighthouse Bridge." An extra fine one, similar in origin, near Cumberland Falls Station, McCreary county, is less well known but has possibilities of recognition in the development of the Cumberland Falls state park.

When the original opening has broken thru, further enlargement is a matter of weathering, and of course this same process of weathering will ultimately destroy it. But in the meantime such a bridge constitutes a natural wonder of considerable interest to the tourist.

At the Carter caves, near Grayson, Carter county, is another fine span. This one is formed of limestone and a stream flows beneath it. The story of its origin is quite different from the preceding ones and is intimately tied up with cave forming processes as found in limestone regions.

## Fine Job Work At Courier Office

Would you invest in your child's future?

25¢

WOULDN'T you have a great feeling of security if you had some competent advisor to turn to every time an emergency occurs in your relation with your children? If you get "THE PARENTS' MAGAZINE" each month you can be sure of the best clinically tested ideas of child specialists and experienced parents with the authority of an Editorial Board of fifty experts, and four great universities behind them.

There is No Other Magazine Like It  
300,000 families have learned to rely upon it for safe help in child rearing problems like these:

Guaranteed  
OK  
By Your Chevrolet Dealer  
Price

GREAT numbers of people in this community have learned that the way to get a better used car is to visit this organization and buy a car with the "OK" that counts.

Every car must pass a rigid, systematic inspection before it is awarded our Guaranteed "OK" tag. All features are carefully checked by factory-trained mechanics—brakes are adjusted, upholstery cleaned, the car made to look like new, and all mechanical parts reconditioned to provide the finest and most dependable performance.

See our fine stock of guaranteed OK used cars—today! Not only will you get a better used car value but you will also get a better deal on your old car in trade.

CASKEY CHEVROLET SALES  
WEST LIBERTY, KENTUCKY

The FIRESIDE PHILOSOPHER  
By ALFRED BIGGS

If in doubt, don't do it.  
You can't buy confidence.  
Hate turns beauty sour.  
Every religion teaches prayer.  
Faith begins where reason ends.  
It is much less trouble to tell the truth.  
More beautiful than a diamond is a dewdrop.  
Some people think Americans should be made to fit the Constitution.

## Machine Gunners Fire at a Painted Landscape

MACHINE-GUN practice with all the advantages of open terrain and landscape targets is being accomplished at the Fort Wayne army post, Detroit, Mich., by using painted landscapes in a limited area. The range used is 1,000 inches, which corresponds exactly to the 1,000-yard range of open country. The gun crews fix their sights and ranges the same as they would on a 1,000-yard range, and fire at landscape objects in the upper black and white panel. The lower colored duplicate scenes are to enable gunners to pick out their targets more readily.

## Bedtime Story for Children

By THORNTON W. BURGESS

## NANNY MEADOW MOUSE IS WORRIED

NANNY MEADOW MOUSE was worried. Yes, sir. Nanny Meadow Mouse was worried. Nanny is a home body. In the first place, most of the time she has a family to think about and care for. There are babies in Nanny's snug little home most of the time. What with helpless babies and headstrong, half-grown children eager to get out in the Great World and show how smart they are, and fully grown children already setting will risk her own life for her babies' sary risks. The most precious thing anybody possesses is life. To risk this for something which at best is nothing more than pleasure is the most foolish thing in the world. Nanny and how necessary it is that a young Meadow Mouse who would live to a good old age be carefully trained.

One of the first things to be learned is the foolishness of taking unnecessary homes of their own. Nanny has real cause for worry. You see, no one knows better than she what a lot of dangers surround a Meadow Mouse any time, but she is far too wise to risk it for any other reason.

"If you lost your life you've lost everything," is a favorite saying of Nanny's, and when you come to think of it, it is exactly so. Sometimes Danny Meadow Mouse laughs at her and tells her that the older she grows the more timid she becomes. That doesn't trouble Nanny at all. She simply

Sometimes Danny Meadow Mouse laughs at her and tells her that the older she grows the more timid she becomes.

smiles and says nothing. She knows it is true, but she also knows that this added timidity is because of increased knowledge of the dangers of the Great World, and that the more timid she is the less likely she is to feel careless. "A Meadow Mouse cannot be too timid," says Nanny, and in that she is more than half right.

Danny Meadow Mouse is different. He doesn't have the care of those

## Mother's Cook Book

## ENTREE OR MADE DISH

THOSE who plan meals are often confronted by the problem of what to serve to add variety, "pep," or to fill a vacant place in the menu. Something is needed that is different, tasty, while at the same time it fits in with the other dishes which compose the meal.

In bridge, when in doubt, lead trumps—in food planning, when in doubt, add a dish which appeals. The following are a few which may be useful; they may be varied by using different fruits or vegetables.

## Orange Fritters.

Take one and one-fourth cups of pastry flour, two teaspoons of baking powder, one-fourth teaspoon of salt, mix well and add four tablespoons of evaporated milk and seven tablespoons of water, one beaten egg—beat until smooth, or about two minutes. Take two seedless oranges, remove all fiber and dip each section into the batter. Have deep fat hot enough to fry a cube of bread a golden color in a minute, then drop in the fritters a few at a time; cook for five minutes, drain, sprinkle with sugar and serve.

## Lobster Croquettes.

Take two cups of chopped cooked lobster, mix one-fourth of a teaspoon of salt, the same of mustard, a dash of cayenne and add to the lobster. Prepare a white sauce, using two tablespoons of butter, three of flour, one-half teaspoon of salt and a cup of milk. Add the cooked white sauce to the lobster, mold into balls when well chilled and fry in deep fat, using a hotter fat than the above. Forty seconds for the browning of the bread is the right amount. Serve with tatar sauce.

## Mushrooms on Toast.

Cook mushrooms in butter for five minutes, add cream and seasoning and pour over well buttered toast. Serve at once.

## AN OLD COUPLE

By ANNE CAMPBELL

TWO with hair as white as snow  
Closely sit together,  
In their hearts the banked fires glow.  
Bitter is the weather;  
But the joy of summer days  
Still is mirrored in their gaze.

As two trees that through long years  
Toward each other bending,  
Nourished both by smiles and tears,  
See the sun descending,  
So do these two, wondering,  
Face the end, and closer cling.

Long the journey from the day  
They joined hands, light-hearted,  
Hard sometimes, the winding way  
Since the journey started,  
But it's been a worth-while pull!  
Sharing made it beautiful!

## QUESTION BOX

by ED WYNN, The Perfect Fool

Dear Mr. Wynn:

I am a woman forty-three years of age and have never been married. A widower about my own age is madly in love with me and wants to marry me. I love him all right, but he says he is a member of twelve lodges. What I want to know is this: Is it wise to marry a man who belongs to as many as twelve lodges?

Sincerely,

MAY SOONICK.

Answer: There is no harm in it as long as you will be satisfied with him staying away from home twelve nights a week.

Dear Mr. Wynn:

What does it mean when you see a lot of letters after a doctor's name?

Sincerely,

MELODIE SON.

Answer: That simply means he got to where he is by "degrees."

Dear Mr. Wynn:

Do you think it is really true that women make fools of men?

Yours truly,

IKE ANTEEB LEEVIT.

Answer: Some times they do, but some times it isn't necessary.

Dear Mr. Wynn:

I met a fellow the other day and have since found out that he is an awful liar and is not thought very much of in our community. I am placed in a very embarrassing position. He has asked me to lend him \$50, and when I asked him when he would pay me back he said: "I will pay you back in two weeks, on the word of a gentleman." What shall I do?

Truly yours,

IONA TRUCK.

Answer: Tell him you'll lend him the money if he'll bring the gentleman around.

Dear Mr. Wynn:

During a conversation, at a bridge

party, some woman passed the remark that there wasn't any difference between a man and a banana peel. It sounds silly to me, but this particular woman is considered very bright, so no one questioned her. Have you any idea what she meant by comparing a man and a banana peel?

Yours truly,

L. BIDSPADES.

Answer: Her comparison was this: Sometimes a man throws a banana peel in the gutter, and sometimes a banana peel throws a man in the gutter.

## More Than a Hundred but Going Strong

MRS. ANNA HOKANSON, now well along the second century of her life at one hundred and four, keeps in trim by doing the milking on the farm near Puyallup, Wash., where she makes her home. The centenarian credits her long existence to the healthful farm life she leads.

## Humble Wasp Enlisted in Fight Against Pests

Last summer a large contingent of live wasps and larvae was sent to Canada by airplane from the village of Izsak, Hungary, writes the Budapest correspondent of the London Sunday Observer.

"The Nemzeti Ujsag" gives an account of an insect plague that brought a golden harvest to the village. In August the unprecedented plague of wasps, which descended in clouds on the fruit trees, threatened to deprive the village of its harvest. The local authorities were appealed to, but before any action could be taken a "lone Englishman" appeared in the village and engaged 60 workmen to collect the wasps and certain insects in sacks at the fabulous payment of between £40 to £50 a week.

The gentleman, whose mysterious activities intrigued the villagers, was a professor from the London Zoological and Parasitological Institute, who had been commissioned by the Canadian government to find an insect which destroys the redoubtable tsetse fly. Professor Morris, who has made a study of this problem, found that the black long-winged wasp of the Hungarian plain destroys the tsetse fly with great speed, and informs the inhabitants of Izsak that their wasps have done fine work in ridding certain newly affected parts of Canada of cases of sleeping sickness.

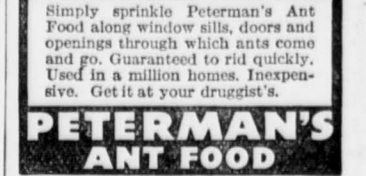

## Growing a Seawall

The cultivation of rice grass on the low-lying lands of Essex and other similar mud flats in England may result in turning thousands of acres of waste land into profitable pasture. Spartina grass became known in Great Britain about 100 years ago through a few seeds dropping accidentally from some cargo ships at Southampton docks. They took root and formed a hybrid with British grass which attracted the attention of agricultural scientists who

saw the possibility of "growing" their sea wall instead of spending thousands of pounds on sea defense to prevent the land being flooded. Experiments have proved that such a wall is not worn away by the tide.

## CHAPTER V—Continued

"She's lying down; and the Capt'n's asleep, too. Can I go slide, Geoff?"

"Does Miss Nona let you?"

"Course she lets me!"

"Well, be careful then and come back before Cynthia gets home or I'll catch thunder for letting you go," the young man admonished her.

He returned to his book and forgot all about the child. Presently the front door banged. Cary, probably, or Tenny back from her sliding. It was too early for Cynthia.

However, it was she. Geoff sprang to his feet and went forward to meet her.

"Anything wrong? Are you sick?" he asked.

"Just tired. Elsie said she'd hold the fort for the rest of the day and let me come home. Where is everybody?"

"Your mother is upstairs lying down. I have it on good authority that the Captain is asleep. Tenny's out sliding."

"Tenny's out—?" She paused in her task of removing her gloves. "Who told her she might go? How long has she been out? Has she her galoshes on?" she inquired.

A sense of guilt began to pervade Geoff's mind. He remembered their talk at Red Rock lake; how Tenny must be guarded from colds.

"Cynthia, you'll want to slay me for this! I told her she might go. I didn't see any reason why she shouldn't go—every kid goes sliding when it snows—"

She snuggled no words in discussion.

"Where did she say she was going?"

"She didn't say! Oh, what a dumb-bell I was not to have asked her! But she was all wrapped up," he said eagerly. "She had on her heavy coat and red cap—"

For answer Cynthia went to the closet beneath the stairs and brought out Tenny's small galoshes. "This snow is wet as wading in water," she said in a frightened voice. "Tenny had on those thin little slippers she wears in the house."

She slipped on the coat she had just taken off and turned, her hand on the door-knob. "I'll go south, you go north. Look at all the side streets. If you find her, pick her up and carry her. Don't let her walk in this snow!"

Geoff dashed madly down the street in the direction Cynthia had indicated. His remorse knew no bounds.

"She'll probably get pneumonia and die," he assured himself with exaggerated pessimism. "Why didn't I think about galoshes? Why didn't I ask her where she was going? Why did I let her go at all?"

He scoured the neighborhood for blocks around without avail. At last, disheartened by his failure he returned to the house.

The first sound he heard when he opened the front door was Tenny's laugh. He bounded up the stairs and found the little girl, glowing from a bath, wrapped in a woolly robe and tucked into bed with an electric pad at her feet, listening enraptured to Cary, who was telling one of his funniest stories.

"You're a fine one, Miss Montague!" Geoff exclaimed, his relief going to his head like wine. "Where were you, I'd like to know!"

She laughed again. "I didn't know myself! Cynthia found me. It was snowing so hard and I got lost and the sled wouldn't go at all and my feet were so cold! And then Cynthia came along and carried me home—"

"Carried you! Cynthia!"

"She came staggering in with this young lady over her shoulder like a bale of hay," Cary put in.

"Where's Cynthia?" Geoff demanded.

"Straightening up the bathroom after the recent ablutions, I imagine," Cary answered.

Geoff made his way rapidly down the hall to the bathroom. Through the open door he saw Cynthia, her wet skirts clinging to her, stooping to pick up Tenny's small garments and she reeled a little as Geoff watched her.

"Look here! You must get those wet clothes off at once! Is there no one in this house who looks after you?" he demanded roughly. "Carrying that heavy child heaven alone knows how far—coming in and putting her to bed without changing your clothes—Cynthia, haven't you any sense at all?"

She looked at him vaguely. "I think she's all right now. I don't think she'll take cold," she answered.

For answer he pushed her down on a low chair and began removing her soaked shoes.

"I'm going to turn the water on in that tub and if you don't want me to put you in—" he threatened.

"All right. I'll do it myself," she answered, smiling but still with that new and alarming vagueness.

He went down to find Miss Nona and at once she was in a flutter of maternal anxiety. She brought Cynthia's bathrobe to her, insisted that she have her dinner in bed. It was a depleted circle which met at dinner.

Geoff had been asleep about two hours when he was awakened by a sound; somebody's harsh, hoarse cough. He sat up, thinking instantly

## THE STORY FROM THE OPENING CHAPTER

Business taking him to Denver, Geoffrey Enslow, young chemical engineer, takes up his residence with his mother's childhood friends. They seem a happy, carefree family. Captain Cary, "Miss Nona" Aylesbury, the captain's daughter; Cary, thoughtless though likable youngster; little Tenny Montague, motherless, who lives with the Carys—and Cynthia. Geoff finds himself very much "at home," though Cynthia puzzles him. She is, apparently against the wishes of her family, running a "gift shop," and astonishes Geoff by the suggestion that he pay board money to her, unknown to her mother. He agrees, though much mystified. Cary's specialty seems to be securing and losing jobs, coupled with financial extravagance, which Cynthia openly resents. Geoff becomes prejudiced against the girl for her seeming pennilessness. A talk with Cynthia's assistant at the gift shop, the "Odds and Ends," sets Geoff wondering about the financial condition of the Aylesbury family.

of Tenny. The child had caught cold after all! How worried Cynthia would be! With the thought of Cynthia came the realization that the sound which had waked him proceeded from Cynthia's room. In a minute he had donned bathrobe and slippers and was tapping at her door.

When she did not answer he went in. Cynthia was tossing restlessly about on the pillows. Her cheeks were scarlet with fever; now and then she gave that hoarse, distressing cough.

It took but a moment to wake Miss Nona; another to learn the name of the family doctor and summon him by telephone. Cary and the Captain were aroused and came to offer their services.

It was Geoff and Miss Nona, however, who carried out the doctor's instructions. Geoff proved of such value as a nurse that when, toward morning, it became evident that Cynthia was seriously ill, it was to him that Doctor Bigham confided the fact that she must be taken at once to a hospital.

"I could get nurses here, of course," the physician said thoughtfully. "But it'll be easier to have her in the hospital. Besides, I want to get her away from here. She's been under a terrific strain for two years. Why some of you didn't see it," he said irritably. "Is more than I can understand. For two years now she's carried a load that would test the endurance of an ox."

"You mean the gift shop?" Geoff asked.

"I mean—everything," Doctor Bigham said largely. "Look here! Cynthia's conscious—or partly so, and she's worrying about something she calls her household budget. I've promised you'd take it off her hands—run it the way she does. That all right?"

Geoff looked startled. "You must mean the shop. Miss Nona looks after the house—"

"She does nothing of the kind. Cynthia's the purse-holder in this family—and with reason, as you'll soon find out. Now just step into her room," he went on briskly, "and make her understand that you're prepared to pay all bills, order what needs to be ordered—that kind of thing. I can't have her worried about such trifles."

Geoff, hesitatingly approaching Cynthia's bed, was startled at the change in her. The blue eyes seemed sunk far back in her head. Her lips were fever-dry. She breathed with difficulty and when she saw Geoff and tried to speak, she began to cough.

"Don't talk," he entreated. "I just came in to say that everything'll be all right, Cynthia. You're not to worry. I'll keep track of expenses—"

"Out of our own money?" she whispered. "You won't use any of your own to pay the bills?"

"I won't use any of mine. I promise."

She laughed again. "I didn't know myself! Cynthia found me. It was snowing so hard and I got lost and the sled wouldn't go at all and my feet were so cold! And then Cynthia came along and carried me home—"

"Carried you! Cynthia!"

"She came staggering in with this young lady over her shoulder like a bale of hay," Cary put in.

"Where's Cynthia?" Geoff demanded.

"Straightening up the bathroom after the recent ablutions, I imagine," Cary answered.

Geoff made his way rapidly down the hall to the bathroom. Through the open door he saw Cynthia, her wet skirts clinging to her, stooping to pick up Tenny's small garments and she reeled a little as Geoff watched her.

"Look here! You must get those wet clothes off at once! Is there no one in this house who looks after you?" he demanded roughly. "Carrying that heavy child heaven alone knows how far—coming in and putting her to bed without changing your clothes—Cynthia, haven't you any sense at all?"

She looked at him vaguely. "I think she's all right now. I don't think she'll take cold," she answered.

For answer he pushed her down on a low chair and began removing her soaked shoes.

"I'm going to turn the water on in that tub and if you don't want me to put you in—" he threatened.

"All right. I'll do it myself," she answered, smiling but still with that new and alarming vagueness.

He went down to find Miss Nona and at once she was in a flutter of maternal anxiety. She brought Cynthia's bathrobe to her, insisted that she have her dinner in bed. It was a depleted circle which met at dinner.

Geoff had been asleep about two hours when he was awakened by a sound; somebody's harsh, hoarse cough. He sat up, thinking instantly

"Of course, Cary and Miss Nona between them had run through what little there was left. Cary wrote Cynthia and she gave up her college work and came home. Opened the Odds and Ends with what her father left her. With Tenny's board—and yours, I suppose?"

Geoff nodded.

"With that and the profits from the shop, Cynthia's kept them all going somehow."

"But the Captain's royalties? Mr. Aylesbury's estate?" Geoff's head was in his hands, his eyes were haggard.

"Those royalties amount to about eight or ten dollars a month. Aylesbury's estate— isn't. Cynthia keeps up a polite fiction that it's invested in her shop but that's just to soothe Miss Nona's feelings."

"But she—Miss Nona—the Captain, too—they're always talking as if they wanted Cynthia to give up the shop; as if it was a whim on her part."

"Of course. It's soothing to the Captain's pride to believe that he has plenty of money and that the gift shop is a fad of Cynthia's; so he does believe it."

"But Miss Nona?"

The doctor shrugged. "Money means nothing in her life! A pretty, sweet-mannered woman but about as practical as a pink morning glory." He rose. "That's the ambulance now. I'm putting you in charge at this end of the line, remember! I'll look after Cynthia—you look after Cynthia's family!"

## CHAPTER VI

## Cynthia's Family.

That Sunday lingered in Geoff's memory for many a long day.

"If I hadn't gone sliding—and I didn't slide, because the snow was too wet—I could Cynthia not have got sick?" Tenny demanded, her small face white with anxiety.

Geoff took her on his lap and gave her a detailed explanation.

"Cynthia caught cold yesterday hunting you—that's true," he said. "But Doctor Bigham says it wouldn't have hurt her if she hadn't been so tired from working in the shop. You weren't to blame, Tenny. The thing we've got to do is to keep this house running till Cynthia is well again."

"Who's going to plan the meals?" Tenny was a practical child.

"Meals? Why, Miss Nona, of course. Good heavens, you don't mean—"

"Cynthia always plans 'em. And she gives Marguerite just enough money to pay for the day's supplies from my hand to—others! Cynthia started the Odds and Ends, and she went to Miss Nona's creditors and explained that she'd pay something every month if they'd give her time. You wouldn't believe how nearly she's out of debt," he finished complacently.

Cary's casual air of detachment from his mother's financial problems was staggering to Geoff. Little by little his first picture of the Aylesbury family was changing. In that Cynthia, a tyrannical, penurious little figure, had been etched sharply against a background of kindly, gentle, charming people who loved her in spite of her difference from themselves.

Now he saw her as a care-worn girl, spending her youth in an effort to discharge her foolish mother's debts, keeping sharp watch of the irresponsible Cary, exacting board from visitors who planned to stay a year, endeavoring to put Mr. Montague's check to the best use before Miss Nona spent it for extravagant trifles.

Anger welled up in Geoff's heart; anger against the sweet but futile Miss Nona, against the impracticable Captain, above all against the graceful youth who lay on his bed smoking while his young sister battled—it might be for her very life!—in the hospital as a result of the burdens her young shoulders had borne.

As though Cary read his thoughts, he smiled ruefully.

"Nice family, aren't we? But here's one thing you've got to take into consideration, Geoff. We've had plenty of money all our lives up to the time Dad died and everything went broke. It took me four whole years to realize that I couldn't ask Dad or Miss Nona for a check whenever I wanted it—I suppose Cynthia would say I don't entirely realize it yet."

"But I'm learning, Geoff! Give you my word I'm learning. I'm not proud of my record since Dad died. If it hadn't been for Cynthia standing by me, poking me up when I lagged and smoothing me down when I got too discouraged, I'd have done something pretty desperate before now."

This, Geoff told himself, was true. To one of Cary's disposition, disgrace and poverty were obstacles too great to be borne. He would have side-stepped them—in whatever manner offered itself at the time. Not the least

performed but one which would occur daily.

"And I used to wonder what made Cynthia so worn out," he mused as he went upstairs in search of Cary.

"Look here," he said without preamble, "I suppose you know what Doctor Bigham has let me in for!"

"It's darned good of you, too!" Cary said warmly. "I don't know what we'd have done if you hadn't volunteered."

"I didn't volunteer—not so you'd notice it," was the grim response.

"But since I seem to be let in for it, I'll have to get the low-down on the facts. How much does Cynthia run this house on?"

"You can't prove it by me," Cary said, stretching a languid hand for his package of cigarettes. "Have one? You see, she takes a certain sum each month from the shop's earnings, and with your board and Tenny's, she pays cash for everything. You'll have to watch Miss Nona," he went on affably. "If she gets half a chance she'll charge things. That's what bailed us up while Cynthia was at college. We had a housekeeper before Dad died. Then everything went to smash except his insurance and the money he left Cynthia and me."

"He left you something, then?"

"Sure—each of us five thousand dollars. Miss Nona had the insurance—enough to live on the rest of her life, too," he added thoughtfully.

"What happened to it?"

"Well, you see, Miss Nona simply ran riot. She'd never had that much money to spend before. When the ready cash was gone she began charging things and the first thing I know, collectors were clustered thick as flies on the doorsteps—it was a Dickens of a mess!"

Geoff's expression was rather grim. "Then what?"

"I wrote Cynthia and she took the first train home."

"Gave up her college?"

Cary rolled astonished eyes at him. "What else was there for her to do? I didn't know anything about running the house."

"I see," Geoff thought he was beginning to see indeed. "And what did Cynthia do when she came back?"

"Started the shop. It seemed to me a lot simpler for her to use her money to pay the bills and quiet things down—"

"Her money? What about yours?"

Cary grinned. "You think I could hold on to five thousand for more than two years? Man, it went so fast I hardly got a glimpse of it as it passed from my hand to—others! Cynthia started the Odds and Ends, and she went to Miss Nona's creditors and explained that she'd pay something every month if they'd give her time. You wouldn't believe how nearly she's out of debt," he finished complacently.

Cary's casual air of detachment from his mother's financial problems was staggering to Geoff. Little by little his first picture of the Aylesbury family was changing. In that Cynthia, a tyrannical, penurious little figure, had been etched sharply against a background of kindly, gentle, charming people who loved her in spite of her difference from themselves.

Now he saw her as a care-worn girl, spending her youth in an effort to discharge her foolish mother's debts, keeping sharp watch of the irresponsible Cary, exacting board from visitors who planned to stay a year, endeavoring to put Mr. Montague's check to the best use before Miss Nona spent it for extravagant trifles.

Anger welled up in Geoff's heart; anger against the sweet but futile Miss Nona, against the impracticable Captain, above all against the graceful youth who lay on his bed smoking while his young sister battled—it might be for her very life!—in the hospital as a result of the burdens her young shoulders had borne.

As though Cary read his thoughts, he smiled ruefully.

"Nice family, aren't we? But here's one thing you've got to take into consideration, Geoff. We've had plenty of money all our lives up to the time Dad died and everything went broke. It took me four whole years to realize that I couldn't ask Dad or Miss Nona for a check whenever I wanted it—I suppose Cynthia would say I don't entirely realize it yet."

"But I'm learning, Geoff! Give you my word I'm learning. I'm not proud of my record since Dad died. If it hadn't been for Cynthia standing by me, poking me up when I lagged and smoothing me down when I got too discouraged, I'd have done something pretty desperate before now."

This, Geoff told himself, was true. To one of Cary's disposition, disgrace and poverty were obstacles too great to be borne. He would have side-stepped them—in whatever manner offered itself at the time. Not the least

of Cynthia's problem, Geoff thought, was the responsibility of this charming, gay but potentially dangerous brother of hers.

Cynthia had been six days at the hospital; never dangerously ill but lying for the most part in a semi-stupor, the result of exhaustion. These had been the six most strenuous days Geoff had ever known. By the exercise of more brain power than he had known he possessed, he had kept the household expenses within the budget.

He had never dreamed that keeping house was so complicated a matter. It had seemed simple enough on Monday when he learned from Elsie what the shop contributed toward expenses at home. He figured it on a monthly basis. A hundred and fifty dollars from the shop, the sum Cynthia insisted on keeping in the bank against an emergency, and the money she was still paying on back debts!

The unusual behavior of the disciples at Pentecost, with Peter's preaching which resulted in the conversion of thousands, evidenced the supernatural, but the cosmic signs which the prophet predicted to take place in heaven and earth were not in evidence. The real fulfillment of the prophet's prediction is in the future and will find fulfillment in connection with the regathering of Israel and the establishment of the Messianic Kingdom.

III. Some Names of the Holy Spirit.

1. Comforter (John 14:16, 17). "Comforter" means literally "one called to one's side as a partaker, an advocate, a helper and defender." He is called "another Comforter" as he was to take the place of Jesus.

2. The Witness (John 15:26). The Spirit peculiarly witnesses of Christ. He does not speak of himself, but takes the things of Christ and shows them unto us (John 16:13).

3. The Spirit of Truth (John 16:13). The Holy Spirit guides into all truth. Those who are taught by him know the truth.

IV. Some Works of the Spirit.

1. He regenerates (John 3:3-8). The new birth is peculiarly the Spirit's work.

2. He teaches (John 14:26). The Holy Spirit was to take up the work of teaching the disciples.

3. Convicts the world of sin (John 16:8, 9). The Holy Spirit alone can show men the demerit of their lives and their shortcomings before God.

4. Convicts the world of righteousness (John 16:10). The resurrection and ascension of Christ prove that he is the Righteous One and that righteousness is only possible as he is accepted as Savior.

5. Convicts the world of judgment (John 16:11). The sinner unrepentant shall be punished. The sinner who refuses the righteousness which God provided in Jesus Christ shall be judged.

6. Gives victory over the flesh (Rom. 8:2, 12, 13). By the energy of the Holy Spirit the carnal nature can be kept in subjection.

7. He leads the believer (Rom. 8:14). The Spirit-filled believer lives the life of the Son of God.

8. He gives assurance to the believer (Rom. 8:15-17). The Holy Spirit witnesses together with the human spirit to the reality of the new birth.

9. Enables the believer to pray according to the will of God (Rom. 8:26, 27). The Holy Spirit helps the believer's infirmities in prayer.

V. The Diversity of the Gifts of the Spirit (1 Cor. 12:4-11).

In the Church there are to be found those possessing the gifts of wisdom, faith, healing, miracles, prophecy, discernment of spirits, divers kinds of tongues and their interpretation.

VI. The Sealing of the Spirit (Eph. 1:13, 14).

Into the regenerated life comes the Holy Spirit at once. The indwelling of the Divine Spirit is God's seal of ownership. It is not only a seal of ownership, but of security. It is also the guarantee of the completion of the work of redemption.

VII. The Unity of the Spirit (Eph. 4:1-6).

Christian unity is only possible when effected by the one Holy Spirit.

VIII. The Sin of Grieving the Spirit (Eph. 4:30).

The Spirit may be grieved by failure to respond to his initiative, by yielding to the lust of the flesh, the lust of the eye and the vainglory of life, by failure to render full and free obedience, as well as failure to surrender every faculty of the being to his control and direction.

Joy

Joy is the mainspring in the whole round of everlasting nature; Joy moves the wheels of the great timepiece of the world; she it is that loosens flowers from their buds, suns from their firmaments, rolling spheres in distant space seen not by the glass of the astronomer—Schiller.

Nobleness

Be noble, and the nobleness that lies in other men, sleeping but never dead, will rise in majesty to meet thine own.—James Russell Lowell.

"I'll bet she was," Geoff said grimly. "How any of you kept out of jail while he was away is more than I know. Let's hear the worst!"

Geoff's knees doubled under him and he sat down on the bed. "Alimony! A kid like you!"

"Been married and divorced for two years," Cary informed him gloomily. "You see, Cynthia was away at college—"

"I'll bet she was," Geoff said grimly. "How any of you kept out of jail while he was away is more than I know. Let's hear the worst!"

Member of Faculty, Moody Bible  
Institute of Chicago,  
Western Newspaper Union.

## Lesson for June 9

THE HOLY SPIRIT  
(Pentecost Lesson)

LESSON TEXT—John 16:7-11; Romans 8:16-17, 26, 27.  
GOLDEN TEXT—For as many as are led by the Spirit of God, they are the sons of God.—Romans 8:14.

PRIMARY TOPIC—Jesus Keeps His Promise.  
JUNIOR TOPIC—The Coming of the Holy Spirit.  
INTERMEDIATE AND SENIOR TOPIC—How the Holy Spirit Helps Us.  
YOUNG PEOPLE AND ADULT TOPIC—The Work of the Holy Spirit.

1. The Holy Spirit Promised (Joel 2:28, 29).  
The prophet foretold that the messianic times there would be a mighty effusion of the Holy Spirit.

1. He was to be poured out.  
2. He was to be bestowed upon all flesh, irrespective of age, sex, or class.  
3. This outpouring was to issue in extraordinary activity and service.  
4. This activity was to be accompanied by marvelous signs.

II. This Prophetic Promise Was Partially Fulfilled at Pentecost (Acts 2:1-21, 32, 33).

The unusual behavior of the disciples at Pentecost, with Peter's preaching which resulted in the conversion of thousands, evidenced the supernatural, but the cosmic signs which the prophet predicted to take place in heaven and earth were not in evidence. The real fulfillment of the prophet's prediction is in the future and will find fulfillment in connection with the regathering of Israel and the establishment of the Messianic Kingdom.

III. Some Names of the Holy Spirit.

1. Comforter (John 14:16, 17). "Comforter" means literally "one called to one's side as a partaker, an advocate, a helper and defender." He is called "another Comforter" as he was to take the place of Jesus.

2. The Witness (John 15:26). The Spirit peculiarly witnesses of Christ. He does not speak of himself, but takes the things of Christ and shows them unto us (John 16:13).

3. The Spirit of Truth (John 16:13). The Holy Spirit guides into all truth. Those who are taught by him know the truth.

IV. Some Works of the Spirit.

1. He regenerates (John 3:3-8). The new birth is peculiarly the Spirit's work.

2. He teaches (John 14:26). The Holy Spirit was to take up the work of teaching the disciples.

3. Convicts the world of sin (John 16:8, 9). The Holy Spirit alone can show men the demerit of their lives and their shortcomings before God.

4. Convicts the world of righteousness (John 16:10). The resurrection and ascension of Christ prove that he is the Righteous One and that righteousness is only possible as he is accepted as Savior.

5

## DEMAND and SELLARS

May 31.—Frances Stamper and Lola McClure, of Sellars, were the Sunday guests of Irene and Pauline Gose of Demand.

Mr. and Mrs. Russell Chaney of Mt. Sterling visited Mr. and Mrs. N. P. Chaney and Mr. and Mrs. Roy Chaney, of Sellars, on Decoration day.

R. T. McClure of Sellars has been confined to his room with a bad cold the past few days.

Mr. and Mrs. Ernest Nickell and son Billy, of West Liberty, are visiting their parents, Mr. and Mrs. O. B. Nickell, of Sellars.

Mr. and Mrs. T. T. Walter and children visited Mr. and Mrs. Dillard Graham, of Demand, Thursday afternoon.

William Basile of Demand visited relatives at Hazel on Decoration day.

Irene and Pauline Gose of Demand spent Thursday afternoon with Mrs. Ora Canfield and Veneta Byrd, of Sellars.

## THE RAMBLIN' KID

## WHITE OAK

June 2.—Troy and Velma Patton, of Florence, spent the week end here with Bert and Sarah Goy.

Miss Josephine Holin of West Liberty passed thru here Saturday.

Mrs. Ulrich Griffiths and son Walter attended federal court at Chillicothe from Monday to Wednesday, and visited Mr. and Mrs. Jesse Adams and family while there.

Mrs. A. D. Lacy and son Kenneth, of Shilversville, attended church here Sunday.

Mr. and Mrs. L. G. Carpenter and baby, of Shilversville, Mrs. J. B. Howard of Boynton, and J. W. Howard and two sons, of Prestonburg, spent today here with Harris Howard and family.

Mrs. Clarence Litteral and children, of Hardinburg, are visiting Mr. and Mrs. George Litteral for a few weeks. Clay Elam of Cincinnati, Ohio, spent the week end here with his parents, Mr. and Mrs. W. M. Elam.

Mrs. Auty Griffiths and son Walter, of Portsmouth, Ohio, are visiting her parents, Mr. and Mrs. M. E. Vance.

Elmer Howard, who is working at Ashland, came in Sunday and took his wife and children back with him.

Miss Ray Elam, who had been employed at the home of H. W. Carpenter at West Liberty, has returned home.

Miss Christine Prater, who had been employed at the home of W. B. May and family, at West Liberty, is now here visiting her aunt, Mrs. Ben Allen.

Miss Maurine Howard, who had been attending school at Hazel Green, has returned home.

Misses Hazel and Lula Brown of Lickburg are visiting their aunt, Mrs. Pearl Griffiths, here.

## CUTIE

## JEPHTHA

June 3.—Dr. H. B. Murray of West Liberty was here Friday to see Elder L. C. Pelfrey. Mr. Pelfrey has had a lingering illness for a number of years and is now in a critical condition.

Mrs. Ezra Williams of Scotoville, Ohio, was the guest of her parents, Mr. and Mrs. Thomas Day, one day last week.

Mrs. Missouri Sparks is visiting at Lacey.

H. M. Fraley of Keaton and J. W. Hill of Relief were Saturday night guests of Mr. and Mrs. Ben Bolen Jr. Floyd McClain of Lenox and Ashland was visiting here last week.

J. H. Wheeler of Isonville, a former resident here, was visiting friends here last week.

About 150 persons attended the memorial meeting at the home of Elder and Mrs. R. H. Ferguson last Sunday evening in memory of H. C. and Cynthia Ferguson. The following ministers took part in the meeting: Frank Kennard, Logville; R. H. Hayes, Moon; J. W. Hill, Relief; and W. J. Beuchimer and A. C. Bradley, Dingus.

Miss Marjorie Cox, who is a student of Morehead state normal school, is at home this week and will enter the summer term next Monday.

Willie Smith and M. C. Bradley, of Dingus, were here on business Monday. The members of Martha church and their friends have moved the church house to a more convenient place.

A heavy rain visited this section again Sunday evening.

Scott Holbrook, one of our oldest and best citizens, was out Sunday to attend the meetings.

The sun is shining,  
The wind is blowing,  
Puts pep in crops  
As it keeps on growing.  
But one thing is certain,  
The weeds will come  
If I don't speed up  
And hoe some.

SLAB

## BERRY ROAD

June 3.—Mrs. Logan Evans and daughters, and Mrs. O. P. of West Liberty, visited over the week end Mr. and Mrs. A. L. Evans and family.

Misses Nancy Elam and Carrie Combs visited friends near Sellersville on Thursday.

Mr. and Mrs. Curt Adams attended church at Centerville on Sunday.

Mrs. C. R. Hale was the all day guest Sunday of her brother and sister-in-law, Mr. and Mrs. Nathan Adair, of Woodsbend.

Little and Louie Evans, of Lothair, visited Mrs. Sally Evans and family on Sunday.

Fredrick Davis returned Monday to his home at Hazard after an extended visit with relatives and friends here.

Ballard Evans was in Frenchburg on business one day last week.

Escom Elam called on friends at Woodsbend on Sunday.

Misses Carrie and Cora Combs and Pauline and Jane Evans attended church Sunday at Index.

Mr. and Mrs. Dexter Evans, Russell Hale, and Gladys Short have returned from Morehead school to spend their vacation here with home folks.

Misses Nancy Elam and Carrie Combs were shopping in West Liberty on Monday.

## SUNSHINE

## GRASSY CREEK

June 3.—Several persons from here attended church at Centerville on Saturday and Sunday.

Ree and Mrs. Claud McClure and children Marlan and Christian, of Indiana, visited relatives here last week.

Edna Mae Eastwood, a teacher of local school, spent the week end with J. M. Gevedon and family.

Mary and Ora Taulbee, of Mt. Sterling, visited their parents, Mr. and Mrs. J. M. Taulbee, the week end.

Mrs. Edith Gevedon is visiting her parents, Mr. and Mrs. Marion Gevedon, of Nickel.

Flakey Ward, who is employed by the C.C.C., spent the week end at home.

Edward Gevedon, Chalmers Ferguson, Cummings Fugate, and Elizabeth Williams, Morehead students, are at home here for the summer.

Kathlyn, Jean, and Wendell Gevedon went to West Liberty on business last week.

Mrs. Ed Buchanan and children, of Hazel Green, are visiting relatives here.

Talmadge McClure returned to his work in Ohio a few days ago accompanied by his sister, Olive.

Miss Lena McClure, who had been teaching at Stone, is back home.

Mr. and Mrs. Edgar Lykins and daughter La Nelle, of Ohio, attended Memorial services here and returned home Friday accompanied by her mother, Mrs. W. F. Lykins.

Mrs. Conley Byrd and Mrs. Oscar Ferguson and children, of Middletown, Ohio, have been visiting friends and relatives here.

## O GEE!

## BUSKIRK

The following persons from a distance were at Salem for Decoration: Mr. and Mrs. Manford Tolliver and son Earl, Andy Tolliver, Mr. and Mrs. R. L. Chaney, all of Mt. Sterling; Mr. and Mrs. Arlie Cecil and daughters Louise and Marjorie, of Hazel Green, and Alvin Oldfield of Roxville.

Mrs. Conley Byrd and Mrs. Oscar Ferguson and children James, Billy, and Naomi, all of Middletown, Ohio, visited their sister, Mrs. C. J. Chaney, and brother, Billy Carter, here, from Thursday to Saturday.

Mr. and Mrs. Manford Tolliver, Andy Tolliver, and Alvin Oldfield were dinner guests Thursday of Mr. and Mrs. H. B. Chaney.

Mr. and Mrs. R. L. Chaney, Mr. and Mrs. N. P. Chaney, and Nancy Tipton were dinner guests Thursday of Mr. and Mrs. R. A. Chaney.

Miss Maurine Chaney is visiting relatives in Middletown, Ohio.

Mrs. Lizzie Tolson of Middletown, Ohio, visited relatives at Grassy Lick thru the week end.

Miss Kathleen Oldfield of Rexville and Earl Wilson of Demand were quietly married Saturday night, B. F. Blankenship officiating. Mr. and Mrs. Harold Oldfield, Marshall Walter, and Elwood Chaney witnessed the ceremony.

The bride is the daughter of Mr. and Mrs. Harlan Oldfield of Rexville. The groom is the son of Mr. and Mrs. Custer Wilson of Demand. Both bride and groom are widely known and well liked by their many friends.

Mr. and Mrs. E. C. Trimble and daughters Laura, Bertell, and Dora were Sunday dinner guests of Mr. and Mrs. Milt Adams of Grassy Creek.

Mr. and Mrs. T. J. Buskirk and Mr. and Mrs. Marion Walter visited over the week end Mr. and Mrs. Willie Powell of Winchester.

Miss Imogene Walter returned home Sunday from an extended visit with her aunt, Mr. and Mrs. Bill Powell, of Winchester.

Miss Perry Havens of Mt. Sterling is visiting her aunt, Mrs. Billy Carter, here.

TOOTSY

## Red Clover Crop to Make Comeback

## Plant Breeders Developing New Possibilities for Improvement.

By Dr. C. M. Woodworth, Chief in Plant Genetics, University of Illinois.—WNU Service.

What was once the principal and about the only legume crop in Illinois may be headed for a comeback as a result of new experiments being conducted by plant breeders of the College of Agriculture, University of Illinois. Red clover is the crop.

The plant breeders are uncovering new possibilities for improving it so that it can withstand the hazards which have slowly been killing it out.

Illinois was once one of the greatest states in the production of red clover, but plant diseases, insects and adverse weather have cut production so severely that the state hardly ever has even enough seed to meet its own needs.

Red clover failures also have brought on feed shortages with subsequent losses to dairymen and stockmen.

Preliminary work by plant breeders has revealed that there are extreme differences among red clover plants in characters that are important from the standpoint of successful production of the crop. Hardly any two plants have been found to be alike. Also the difficulties in red clover improvement work have been more clearly recognized.

However, it is believed that plants can be selected and new strains built up that will be superior and useful in overcoming present hazards.

In the past plant breeders have avoided the red clover crop because it is so hard to propagate under conditions of controlled pollination. The plants are almost entirely self-sterile, insects being depended upon for pollination under field conditions. Hand pollination can be done on a small scale, however.

Evidence of need of this crop by plant breeders is seen in the few distinct strains now existing. Red clover seed is a conglomerate mixture as to color and will produce all types of plants. When the plants are spaced so that their distinguishing characters can be observed, they are seen to differ in leaf markings, flower color, growth habits, winter hardiness, resistance to disease and persistency.

## Asserts Poor Packing Is Cause for Mold in Silos

Moldy silage may occur around the sides of a silo where the silo is not tight, and the only remedy is to use a tight silo, says Prof. E. Van Alstine of the department of agronomy at Cornell.

Moldiness throughout the silage, he said, comes from poor packing. Finer cutting, packing, and adding water are ways to remedy the situation another year. Moldy silage at the surface occurs when air seeps in. If silage is removed fast enough, the mold will not have time to develop. If it cannot be removed fast enough, it may be covered with matched boards or with canvas pressed closely to the silage to exclude air.

He said that hot silage is traced to normal fermentation which produces heat, or to the growth of mold which also produces heat. In neither instance does the heat itself do any harm.

The freezing of silage does no harm other than interference in the removal of silage from the silo. Professor Van Alstine pointed out, and added that an insulated silo avoids this difficulty.

## Heart-Girth and Weight

Every dairyman who has his cows tested regularly—and that should include all dairymen who are in the business for a living—should know the weight of each cow under test. For farms with wagon scales, this is easy. But other dairymen may use the method of estimating the weight according to the heart-girth—a well-established and sufficiently reliable system. The bureau of dairy industry has recently completed a new table of weights, based on American-type Holsteins and Jerseys. By this table and a good tape-line you can come within a few pounds of the true weight of any cow. From a peewee of 50 inches girth weighing 394 pounds to a monster of 92 inches weighing 1,975.—Farm Journal.

## Locusts for Reforestation

Locust trees have been a satisfactory species for reforestation on abandoned coal strippling land in eastern Ohio, reports the county agent in Muskingum county. He has under supervision nine farm woodlot demonstrations several years old where pine and locusts have been planted. These trees have crowded out weeds and briars and are now taking on the appearance of a real forest. Some 4-H club members in the county have taken forestry projects. While a number of farmers set out trees in 1934, the season was too dry for most of them to survive.—Ohio Farmer.

## Choose Compact, Beefy Cows

In selecting cows for baby beef production, the compact, beefy sort is preferable. It is important that the cows show evidence of being good milkers, says Wallace's Farmer. A good milking dam will produce, as a rule, the best and growthiest calf. It is well to keep in mind that there is no real substitute for milk as food for a growing calf. A cow that is a liberal producer of milk is sometimes worth two of the kind that fails to milk in sufficient quantity to properly raise her calf.

## MOON

June 3.—G. W. and Carl Blanton were in this vicinity on business last week.

Mr. and Mrs. Raymond Ison returned home Saturday from Morehead state teachers' college.

Farmers were very busy last week putting out their crops, having been delayed in this work by so much rain.

The adult class conducted by M. F. Hollbrook closed here May 17. It is interesting to see and know how much some of the pupils learned. We hope we can have another school like it this fall and winter.

Mr. and Mrs. R. H. Ison, Mr. and Mrs. Raymond Ison, and Mr. and Mrs. Isaac Ferguson visited Sunday M. F. Hollbrook, who has been on the sick list a few days, but is getting better.

The stork left a big boy—Burl Geis—at the home of Claud Keaton last Saturday; also a girl—Mary Ellen—at the home of James Keaton.

It was thought by most people that Jack Frost got the fruit, but M. F. Hollbrook says he has plenty of apples for home use.

## LENOX

June 1.—Albert Trimble of Lick Branch was the Saturday night guest of his cousin, L. B. Adkins, here.

Mrs. Ira Ison and little daughter Evelyn and Misses Evin, Dolly, and Verna Trimble, of Lick Branch, were dinner guests Sunday of Mr. and Mrs. Willie Adkins, here.

Mr. and Mrs. Leonard Hollbrook and children and Miss Sally Smith, of Jeptha, attended church here Sunday.

Mr. and Mrs. Roy Potter and children and Misses Daisy and Minnie Shaver and Edna Shaver, of Cow Branch, attended church here Sunday.

Mrs. Oscar McKenzie and daughter Ruth, of West Liberty, spent a few days last week with her mother, Mrs. J. D. Dennison, here.

Mrs. Liz Alice Keaton of this place was called Tuesday to the bedside of her brother, Charlie McKenzie.

Mr. and Mrs. Leonard Adkins of this place had business in West Liberty on Monday.

Willie Adkins and little son visited his parents, Mr. and Mrs. Frank Adkins, in Elliott county, recently.

Evert Day and J. E. Caskey, of this place, had business Thursday in West Liberty.

Miss Laura Conley of West Liberty visited her uncle and aunt, Mr. and Mrs. Lacy Day, here, one day last week and was accompanied home by her cousin, Miss Florence Day.

Earl Conley of West Liberty visited relatives here a few days last week.

James Perry had business in Mt. Sterling one day last week.

Mr. and Mrs. Bill Neice's home burned one day this week. Everything was destroyed. Cause of fire unknown.

Mr. and Mrs. Earl Patton of Louisville are visiting Mr. Patton's grandmother, Mrs. J. D. Dennison, here.

## MAYTOWN

June 3.—Mr. and Mrs. Otis Moore and Mrs. Jennie Pieratt, of Middletown, Ohio, visited relatives here from Wednesday to Monday.

Mr. and Mrs. Vol Nickell and two daughters Ruby and Mildred, of Indiana, visited Mr. and Mrs. Dorsie Ingram from Thursday to Saturday.

Mr. and Mrs. Willard Ingram of Toller were the Saturday guests of Mr. and Mrs. Dorsie Ingram.

Mrs. Vearl Lacy, who had been attending school at Morehead, has returned to her home here.

Mr. and Mrs. Virgil DeBusk and Mr. and Mrs. Hobart DeBusk spent Sunday with Mr. and Mrs. W. S. McKinney at Elder.

Ethel and Mabel Prater and Florence and Christine Lykins visited relatives at Sandfield on Saturday night and Sunday.

Uncle George Phipps, who has been confined to his room the past few weeks with rheumatism, is better now.

Mr. and Mrs. D. C. Lykins and two daughters and Hayden Lykins visited at Daysboro on Sunday.

Buel Picklesimer and Preston Prater attended meeting at Centerville on Sunday.

Mr. and Mrs. James Ingram and Mr. and Mrs. C. E. Day attended the memorial meeting Sunday at Toller.

JACK

## MAYTOWN and NANNIE

June 4.—Mr. and Mrs. Vol Nickell and daughters Ruby and Mildred, of Shelbyville, Indiana, came out for Decoration day and spent from Thursday to Saturday with Mrs. Nickell's sister, Mrs. Maggie Ingram, and family.

Mr. and Mrs. Otis Moore and Mrs. Jennie Pieratt, of Middletown, Ohio, are visiting relatives at Nannie.

Mr. and Mrs. Henry Rose and children, of West Liberty, motored over here Thursday afternoon for Decoration.

Mack Perry has moved his sawmill from T. G. Henry's to Haden Lykins', near Maytown.

Rev. Harlan McClure of Sellars passed thru here Saturday afternoon on his way to Pomeroyton to hold a meeting, and stopped for a short visit with J. M. Rowland.

Mrs. Celia Dennis of Middletown, Ohio, is visiting her parents, Mr. and Mrs. R. T. Hatton, at Maytown, and sister, Mrs. Rollie Wilson, at Nannie.

*Accent on SAFETY* ✓

Big, positive, easy-acting brakes

Welded all-steel body reinforced with steel

Safety glass all around at no extra cost

THE 1935 V-8 is the safest Ford car ever built.

Safety glass is standard all around in every model, at no extra cost. Ford bodies are all-steel, welded. The Ford double channel X-type frame is low, rigid, strong.

The new Ford brakes have greater surface per pound of car weight than any other car under \$1095. And the Ford brake requires 1/3 less foot pressure this year. Big 6x16-inch Air-balloon tires, Ford transverse springs, and Torque-tube Drive also guard your safety. They make for firm road-grip on turns or joggly roads.

And the responsive Ford V-8 engine, with its 85 horsepower, holds large reserves of power to

draw you quickly away from possible dangers.

This 1935 Ford V-8 accents comfort, beauty, and thrift, too. You are near a Ford dealer—go see him today. Get into this Ford V-8. See for yourself how much this car gives you.
